

If you intend supplying artwork for print please ensure your files are compatible to our specifications, please check & supply a colour printed hardcopy of the final artwork if possible. (if supplying a pdf proof for reference please mark **PROOF ONLY**). Please supply at least 1 of the following formats options:-

**1: EPS file (convert fonts/supply links/trims/3mm bleed) 2: PRESS PDF (+fonts embedded/no compression/trims/3mm bleed) 3: original editable file (fonts/links/3mm bleed) & original file saved as copy (fonts converted/links/3mm bleed)**

Please check artwork, colour separations, sizes, links, trims and bleeds. Failure to meet requirements may affect quote & turn around time. If you have any queries regarding the following specifications please contact our art department for more information.

## Art Supply Checklist

**NOTE:** Artwork created by external suppliers (ie printers/artists) may vary when reproduced. Some artwork files may require adjustments. File transfer facilities and devices accepted below.

<b>FTP</b>	contact us for address, user & password	<b>USB</b>	USB Memory sticks
<b>CD</b>	Mac or PC (ISO or HFS)	<b>DVD</b>	Mac or PC (DVD-R, DVD-RW)
<b>EMAIL</b>	Compress files if possible (eg .SIT & .ZIP) 10 mg limit to email size		

## File Formats

These & earlier graphic formats are the only types accepted: [Also supply trims, bleed, fonts & links.](#)

<b>VECTOR</b>	:: <b>FREEHAND MX</b> :: <b>ILLUSTRATOR CS2</b> :: <b>QUARK EXPRESS 6</b> :: <b>INDESIGN CS2</b> :: <b>PHOTOSHOP CS</b> :: <b>PRINT READY PDFS</b>
<b>RASTER</b>	:: <b>PHOTOSHOP CS</b> (min. resolution recommended is 300dpi photos & 600dpi lineart) Dont forget trims & bleed.
<b>AI</b>	Export files saved in Adobe Illustrator (AI) format from vector-based progams (ie Illustrator & Corel)
<b>EPS</b>	Export EPS files from vector-based applications (ie Freehand, Illustrator, Quark, Indesign) No JPEG encoding (only use ASCII or BINARY) Include crop & trim marks and bleed if required.
<b>PRESS PDF</b>	<b>TO AVOID ARTWORK REJECTION &amp; IMPOSITION ISSUES, ARTWORK MUST BE ALLIGNED TO THE EXACT CENTRE OF THE PDF WITH TRIMS &amp; EXACTLY 3mm OF BLEED* ON ALL SIDES</b> , Supply each version of artwork on individual pages. <b>(Do not combine multiple versions of artwork on the one page)</b> save as high quality resolution, press optimised (print ready) PDF, 300dpi. Include fonts. <b>Do not compress or optimise for web.</b> Please check carefully before supplying.
<b>TIFF</b>	Use TIFF for raster-based files (ie Photoshop 1clr or full colour graphics only) Do not use LZW compression. Resolution minimum of 300dpi. Dont forget trims & bleed.
<b>JPEG</b>	Not recommended but accepted, high compression levels can distort the image and effect image/ print quality. (1clr or full colour graphics only) Preferred resolution is 300dpi (ie graphics from the internet are usually compressed to around 72dpi and are not high quality images. Use jpegs only as a last resort. Dont forget trims & bleed.
<b>NOT SUPPORTED</b>	Microsoft Word, Powerpoint, Excel, Publisher, Pagemaker, Corel etc <b>RESAVE AS PDF, EPS, AI or TIFF</b> <i>(Artwork time may be needed to reset artwork created in word processing applications)</i>

### DISK CHECKING FEE MAY APPLY

A disk checking feemay apply each time your file supplied fails to meet our specifications.

This fee is based on the time needed to open & analyse supplied artwork. If your artwork is correct this fee will not be charged.

### CHANGES TO INCORRECT ARTWORK SUPPLIED

If supplied artwork (ie PDF'S) do not pass our preflight check we will require new corrected artwork to be re-supplied. This delay may affect the turn around time of your job. You may request changes to be made to your file by Styleprint, if so time to correct your job for printing will be charged

### REPRINTS & CHANGES TO EXISTING ARTWORK

Your artwork will be archived for twelve months only. All artwork past this date will be unretrievable.

### TRANSFER OF ARTWORK TO DISK FOR CLIENT BACKUP

If you require artwork to be saved onto disk, a copy of our native files (mainly freehand MX) can be burnt to cd or emailed. If you require special setup of your artwork, or require artwork saved to another format other than our current files ie PDF, Illustrator, EPS, TIFF or JPEG then time to unarchive, resave & check the file will incur an art time fee depending on the requested format and time taken to resave.

Please be aware there will be a fee for this service.
